Wild and dramatic nature - the world's best reason to visit Flåm

Flåm is located in the innermost part of one of the world's deepest and longest fjord, the 204 kilometer long and 1308 meter deep Sognefjord. Surrounded by steep mountains, thundering waterfalls and narrow valleys, this area is a paradise for those who seek unique and spectacular experiences in nature. Flåm is easily accessible regardless if your preferred means of transportation is by car, train, boat or bus. Cruise ships gliding in through the narrow fjord with their course set for Flåm is a daily occurrence during the spring and summer months.

For booking and purchasing tickets, please visit our Ticket & Visitor Center at the Flåm station or go to www.visitflam.com
