[Hardangerfjord](#)

Fjord Norway

When visiting the land of fjords, you must not miss the opportunity to explore the impressive landscape up close.

The Nærøyfjord

The narrow and spectacular Nærøyfjord and Aurlandsfjord are surrounded by steep mountains with snow-capped peaks that protrude 1800 masl., with rushing waterfalls and idyllic alleys along the fjord. The area is rated one of the world's most beautiful fjord landscapes and is on UNESCO's World Heritage List.

Hardangerfjord

Experience apple blossom and romance in Hardanger. Combine a sustainable fjord cruise on the beautiful Hardangerfjord with visits to museums and local farms that produce fruit, juice and award-winning cider.

Geirangerfjord

The Geirangerfjord is a 15 km long fjord on the UNESCO World Heritage list. The fjord is one of Norway's most visited attractions, surrounded by high mountains, where abandoned farms cling to the mountainsides. You can see the 'Bridal Veil Waterfall', on the trip through the fjord. On the journey, you will experience wild and beautiful nature nature at its very best.

[The Flåm Railway](#)

Flåmsbana

“The Flåm Railway is an experience unparalleled in Europe”

As one of Norway's few private railways, Flåmsbana offers a journey through the best of Western Norway's beautiful, untouched and dramatic nature.

The journey from Flåm in the innermost part of the Aurlandsfjord, up to Myrdal mountain station at 867 masl., is a railway experience unparalleled in Europe! From the comfort of a vintage train compartment, you can enjoy the changing scenery of the steep and narrow Flåm Valley. The sparkling blue river follows the railway for large parts of the trip, passing through agricultural landscapes where you'd think no one could live, the old Flåm village centre and the old church.

The journey, with views of mighty waterfalls and mountain peaks, takes about 60 minutes. The train travels slowly and takes a five-minute photo stop at the Kjosfossen waterfall where you can go out onto the platform. The train connect at Myrdal with most day-trains between the capital city of Oslo and Bergen on the west coast.

Amazing feat of engineering

Construction of the railway lasted from 1923 to 1940 and is said to be one of the greatest engineering feats in Norway. The 20 km long railway line is one of the steepest standard gauge lines in the world, with 80% of the journey running on a gradient of 5.5%. There are no less than 20 tunnels, 18 of which were built by hand. One of the tunnels even takes a 180 degree turn inside the mountain.

The train runs alongside a construction road, known as the Rallar Road or Navvies' Road, that was built to transport materials from the fjord to the mountains when the Bergen Line was built around 1900. Today, the Rallar Road is a popular cycling route from Finse to Flåm.

Famous worldwide

The National Geographic Traveler Magazine calls the Flåm Railway one of the top 10 train journeys in Europe while in 2014, Lonely Planet went even further and called it the best train journey in the world. It is a true bucket list experience when visiting Norway, and by far one of the most popular tourist attractions.

Agent reservations for The Flåm Railway

Agent bookings for both individuals and groups, using our net rates, must be made separately. We recommend requesting an agent login to our booking site, Citybreak Sales Agent System, at www.agent.citybreak.com

We recommend making reservations well in advance, as some departures may be fully booked. We recommend “Group Bookings” for organized groups of 10 people or more to gain assigned seating with the group's name on the train windows. When making a reservation it is important to inform about the nationality, which enables us to provide correct guiding onboard, both visually and by audio. Any major changes in the number of travellers or possible cancellations must be reported as early as possible.

Individual reservations

The Flåm Railway and the Vy Oslo – Bergen Railway are cooperating on the same ticket system, which gives an opportunity to have a common and a general one-way train ticket for individuals (FITs) covering both lines.

Entur operates ticket system, customer centre and the stations' sales and service on behalf of the railway companies operating on the Norwegian rail network.

Combined and coordinated travels

Tickets for the Flåm Railway, solely or combined with the Bergen line, may be purchased at all manned stations, on Enturs ticket machines, at www.vy.no, or on the spot in our premises in Flåm Visitor Centre & Train Station.

The Fjords

The Fjords is owned by Norway's best AS og Fjord1. Norway's best AS is a facilitator of travels and spectacular experiences in Flåm and the surrounding area. The modern tourist expects to experience the unique traits of a region in an inspiring, facilitated and efficient manner. This in combination with comforts, food experiences and service of the highest quality is our goal.

Fjord1 AS is the largest ferry company in Norway. Fjord1 AS has approx. 1200 employees and the main business areas are ferries and passenger boats. The Fjord1-ferries - crossing the fjords and connecting the islands to the mainland - are inevitable parts of the public transportation infrastrucure on the west coast of Norway.

Premium vessels

The two award winning 'Ship of the Year' vessels Vision of The Fjords (2016) and Future of the Fjords (2018) defines a brand-new standard in design and technology. The ultra light carbon fibre vessels are designed to maximize the tourist experience in any weather, with large windows and walk ways inspired by the winding trails of steep mountain terrain. The continious walk ways enable those of limited mobility to get onboard and around the vessel effeortless.

Passengers are encouraged to go out on the top deck and enjoy a very different experience compared to traditional passenger vessel. Inside you will find Nordic inspired interior design with high level of comfort.

These are environmentally friendly vessels, where Vision is a diesel electric hybrid and Future is fully electric. Both vessels travel in the most vulnerable and spectacular area of the UNESCO listed Nærøyfjord, only on battery power and keeps to less than 10 knots.

Bus to Aurlandsdalen

This is a flexible and practical transport to experience hiking the beautiful Aurland Valley. The bus goes to Østerbø, at the beginning of the trail down to Vassbygdi, and back to Flåm and Aurland in the evening. The schedule is adjusted to the average walking time through the valley.

[Read more on website](#)

[View timetable](#)

www.norwaysbest.com/things-to-do/bus-services/bus-aurlandsdalen

Location:

Bus departures from Flåm, Aurland, Vassbygdi, Berdalen* and Østerbø. *Bus only stops here on route to Østerbø, not return.

Prices:

Adult: from NOK 110,-

Children (4-15 years): 50% of adult price

Children (0-3 years): free of charge

Tour facts

Open: Daily in period July - August.
Only fri, sat & sun in other periods.

Duration: Bus takes 1 hour
(Flåm - Østerbø, one way)

Requirements: Even though most of the trail is downhill, the hike is described as demanding due to length and rocky path. Some hiking experience and good physical shape is recommended.

About the hike

The walk from Østerbø to Vassbygdi is about 20 kilometres long and takes approximately 6-8 hours. The path is easy to find and marked with the red T-signs. It is possible to hike the opposite way.

In the early season, there might be rockfalls and remnants of landslides on the way, as well as high water level. We recommend to always check the conditions and be prepared for changing conditions, as the weather can be unpredictable.

Other: Proper clothing will be provided

Undredal

Undredal is a unique Norwegian fjord village where people still have a strong connection to the land and their traditions. Famous for its goat cheese, architecture and breathtaking scenery.

The quality of the white and brown goat cheese is the result of time-honoured traditions of dairy and cheesemaking, cheesemaking being closely tied to the village's identity. As a result, Undredal goat cheese received the award of Norway's best goat cheese in 2011 and 2012.

Flåm region

Culture & history

Take a trip back in time and discover the history of building the Flåm Railway, as well as the tradition and craftsmanship behind the original penny loafer, the Aurland Shoe.

The Flåm Railway Museum

The year is 1924 and construction of the Flåm Railway has finally begun, but the nearly 20 years of work ahead will not be easy. Get to know the exciting stories behind building the Flåm Railway, the world's steepest railway. The museum gives you insights into the hardworking people who built this masterpiece, as well as the many technical and legal challenges of building it.

The Flåm Railway Museum offers an authentic El-9 locomotive, an old electric range locomotive, several rail tricycle and exhibitions with text, pictures, sounds and objects, as well as video presentation of a journey on the Flåm Railway. In front of the museum, you will find a shop with Flåm Railway logo items and souvenirs. You can for example buy books and videos about Flåm and the Flåm Railway and the shop do carry the traditional Aurland Shoe.

Unique products

Make sure to stop by the souvenir shop at the museum entrance. Here you will find unique Flåm Railway items perfect for any train enthusiast as well as children, such as Lego-style building blocks.

Location: Flåm city centre / [Read more and see opening hours.](#)

Aurlands

The Aurland Shoe, as it appears today, have been in production since the mid 1930 ´s. On its peak, 19 different shoe factories where located in Aurland, and at most nearly 100 people were employed as shoemakers. Today the Aurland Shoe Factory is the only remaining factory that still produces the traditional Aurland Shoe.

The shoe factory in Aurland is one of the few remaining shoe factories in Norway where you can experience working artisans. The factory outlet offers the possible to purchase the Aurland Shoe and other leather products.

Aurland Shoe Économusée

The visitor center is based on the Canadian model of 'Économusée'. The purpose of an Économusée is to promote and keep alive traditional crafts, skills and knowledge. An Économusée is not a traditional museum but designed for small-scale businesses specialized in arts and crafts who want to provide the visitors with information about the production process, skills and techniques. the Aurland Shoe and other leather products. **Location:** Aurland [Read more and see opening hours.](#)

More than 150 years of hospitality in Flåm

At the end of the 18th century, Fretheim Hotel was a large farm, which accommodated rich English lords who came to fish for salmon in the Flåm River and to enjoy the scenic landscape.

Originally, the hotel was constructed in the Swiss style, but has evolved throughout the years in line with the increase of tourists and travelers on the Oslo - Bergen Railway and more recently the Flåm Railway. Today, the hotel is an exciting building both architecturally and historically, with the distinctive, stately old part of the hotel harmonizing perfectly with the more recent part of the building built in 2000.

The history of Fretheim Hotel is carefully preserved and you can still see how the hotel used to be. The old part of the hotel has been beautifully renovated, with open fireplaces and antique furniture in the lounges, library, conference rooms, and not least, all the historical guest rooms. You can walk around the corridors, discover new things at every corner, and enjoy the atmosphere of a glorious past. Fretheim Hotel became a proud member of the “Historical Hotels of Norway” in January 2012.

Fretheim Hotel has a close cooperation with local farmers and welcomes their products of high quality. The hotel is widely known for its cuisine and use of local ingredients. The area surrounding Flåm is rich in local producers of unique foods, such as the Undredal cheese, small-scale producers of top quality lamb, venison and reindeer and, not least, the organic vegetables from “Sogn Jord og Hagebruksskule”, the local agricultural college.

Fretheim Hotel is located in Flåm, which is the perfect base for excursions in the unspoiled, beautiful and wild scenery of West Norway. Since we are a certificated Eco-lighthouse, we truly care about the environment, our history and traditions. Every room has a view of the fjord, a beautiful garden or towards the mountains, which guarantee a unique stay.

Food and beverage

Lobby bar: 24 hours reception and lobby bar, where we serve sandwiches, cakes, coffee and other cold beverages.

Breakfast is served in the restaurant between 06.30–10 AM (May -Sep) and 07.30–10 AM (Oct -Apr).

Lunch is served in the restaurant between 11.30 AM and 02 PM for pre-booked groups of 10+ paying guests. You may choose between a regular 2- or 3-course lunch or lunch box.

Lunch Box includes; Sandwich, fruit, and one bottle of water

Dinner is served in the restaurant from 6.30–9.30 PM (May-Sep) and 7–9 PM (Oct-Apr). Between 1 May and 30 September, we have buffet included in HB. Outside this period, we offer a 3-course set menu.

Historical Hotel

Fretheim Hotel is a proud member of “The Historical Hotel of Norway” and Worldwide. Fretheim is also a member of the Norwegian Eco lighthouse. We received a re-certification again in 2012. The hotel has sustainable tourism as a goal. We have reduced the use of electrical power and are recycling all garbage.

Meetings & Conferences

Although the history of the Fretheim Hotel dates back to the 19th century, we now offer the newest and most modern conference facility in the area. Flåms' central location in the middle of Vestland countymakes it a perfect gathering place!

Green Conferences

In 2018, Fretheim Hotel was certified as a provider of Green Conference through the Eco-Lighthouse Foundation (Miljøfyrtårn). The goal is to reduce the climate and environmental impact in connection with events. Recycling, sustainable food and emission-free transport are important criteria. If your company is, or can document that it is working to become, environmentally certified, a conference with us can be verified as a «Green Conference».

Why choose Fretheim Hotel?

New & modern conference facility, centrally located with easy access

Hybrid transportation and transport on rails

'Eco-Lighthouse' certified and provider of 'Green Conference'

Proud member of 'De Historiske Hotel & Spisesteder'

World-class food based on organic products from local producers

Food philosophy

Good food and drinks are important parts of a successful stay. 'Norwegian', 'locally produced' and 'in season' are the basics of Fretheim Hotel's food concept. You will not only get a tasty meal. Cultural history is a part of the package, and you are participating to local economic growth just by dining.

Our menus are seasonal and based on traditions with a modern touch, prepared with first-class ingredients that are as short-distance as possible. - We believe that it is more sustainable to offer hand-picked blueberries from a local farmer, than organic blueberries which must be shipped in from California, says Head Chef Bjarte Finne.

It is not only the food that is locally produced. Juice and cider from the Sognefjord and the Hardangerfjord have become popular. Beer brewing has long traditions in Western Norway and we serve beer from the local brewery in Flåm.

Short travelled

'Short travelled' is one of the basic principles in our food philosophy. Both sustainability and animal welfare is central, and we work closely with a number of local producers who share our values. Try goat cheese from Undredal, cured meats from Haugen Gardsmat, fresh vegetables from Sogn, berries from Lærdal and meat from Tveite Gard. We are part of the network Smak av Kysten (Taste of the coast) and among other things, we get halibut from a land-based fish farm by the Sognefjord and shellfish from the coast outside Bergen.

We want to contribute to a vibrant local culture and biological diversity in the world heritage area. When we support local producers, they can focus on operating on a scale appropriate to the area.

Produce in season

We base our menus on the season and traditional cooking methods. Autumn is the time for mountain-grazed lambs, game, root vegetables, and apples. Perfect for chilly evenings! In winter, fish and shellfish are at their best, accompanied by root vegetables. Food was traditionally cured, smoked and canned to last through winter, methods you will find on our menu.

In spring, life starts to germinate and grow. Spring vegetables, such as asparagus and fresh herbs, are central. Summer is time for fresh vegetables, berries and fruits here by the fjord.

A short-travelled food experience

About Voss region

Voss is a perfect place for action and activities that the whole family can enjoy. Feel the adrenaline rush on board a rafting boat on the river, get up high in the treetops or take a relaxing tour with the gondola to discover amazin adventures in the mountain.

You can easily access Voss by train from both Oslo and Bergen, the two largest cities in Norway. The traffic hub at Voss Railway Station (56 masl) is right next to the lower station of the new gondola which takes visitors to the mountain in an environmentally friendly way. After 7 minutes you will reach the top of Hangurstoppen Mountain, ready for exciting summer and winter experiences.

1 Fjord Cruise Oslo Harbour

About the Oslofjord

Not only is the Oslofjord beautiful, but in and around Oscarsborg and Drøbak there are interesting places with many activities to discover.

[Read more on website](#)

www.norwaysbest.com/things-to-do/fjords/fjord-cruise-oslofjord

Oscarsborg fortress

Due to the island's place in the narrowest part of the Oslofjord, it was a natural location for a naval defence of Oslo. The first defence was constructed as early as the mid 17th century, while the fortress which stands today was finished in 1853. The fortress is best known for sinking Nazi-Germany's heavy cruiser Blücher, on the morning of 9th April 1940. The last military operations ended in 2002 and the island and fortress now function as museum and hotel open for visitors.

(Cancellation deadline 48 hours)

Sea eagles

Chances are you will see spectacular wildlife, and most certainly sea eagles. With a wingspan on 2.65 m, it is the largest eagle in north Europe.

History of the Trollfjord

Trollfjord was the scene of a very unusual battle between fishermen which took place in 1890. Rich with cod, the fjord lured modern fishermen with steam vessels to the area. They tried to cut off the traditional fishing boats in order to keep all the fish for themselves. The old fishermen took up the fight. Learn how the battle ended during the trip.

About Norway’s best AS

Through joint ventures, wholly-owned subsidiaries and partners, both international and national, we seek to put guests first, through all stages of their experience on their journey to the natural beauty of the fjord landscape.

We think holistically about tourist destination development and our philosophy is that the concepts of culture, nature and service should be mutually supportive in order to create the best possible customer experience.

Historical timeline

Aurland Ressursutvikling and its wholly-owned subsidiary Norway’s best AS has been an important contributor to the development of a world-class travel destination. When the company was founded in 1997, interest in the Flåm Railway and tourism in the region had been on the decline for a long time. Through customer outreach, a vision of the region’s potential and substantial investments, a destination has been developed on a step-by-step basis as an inspiration to other tourist destinations in Norway. We take knowledge and experience from destination development in Flåm into our national commitment and contribution in developing and positioning Norwegian quality destinations and tourism products.

Vision, business idea an values

Vision: “The world travellers first choice for spectacular experiences”

Mission: Sale of world-class sustainable nature experiences

Business idea: Develop, own, operate, market and sell selected sustainable tourism experiences in the world market

Values: Genuine, hospitable, spectacular, competent

Business areas

The Group comprises the following business areas:

Sales and marketing: Distribution of products and experiences, nationally and internationally, through digital distribution channels.

Destination Flåm: Fretheim Hotel, Heimly Guesthouse, Flåm Bakery and Hotel Aurlandsfjord. Sales of own products and souvenirs in the Flåm Railway Museum and Flåm Store. Aurland Shoe Factory with produces and sells the Aurland shoe, bags and other accessories.

Destination Myrkdalen: Myrkdalen Hotel, restaurants, ski resorts, cycling and various outdoor activities.

Property development: Holiday homes (cabins and apartments) in Myrkdalen Fjellandsby.

The Flåm Railway - Sales, operation, and development of Flåmsbana between Flåm and Myrdal, operated by the company Flåm Utvikling (owned 50/50 between ARU and Vygruppen).

The Fjords - Operation and development of fjord-based tourism experiences on Nærøyfjorden and Geirangerfjorden (owned 50/50 between Norway’s best AS and Fjord1 ASA).

Norway’s best AS Sustainability

The climate challenges are global, and the tourism industry are obliged to act for a sustainable business and future development.

Norway’s best AS has established a sustainability strategy based on the UN Sustainability Development Goals (SDG). Norway’s best AS will commit and take its responsibility for a climate friendly travel and tourism business, and work towards zero emission as a company and our products. Sustainable business development in Norway’s best AS will involve systematic work and measures in order to cut our emissions, preservation of the environment and increase value.

Stakeholders

Norway’s best AS collaborates with various actors in its sustainability work. Locally, Aurland Municipality, Port of Flåm (Aurland Hamnevesen) and Visit Sognefjord are our partners. In addition, the company cooperates with important national players:

DNVGL: Collaboration partner associated with implementation of quality systems to follow up and measure our sustainability work.

Bellona: Formal agreement with the independent non-profit organisation to meet and fight the climate challenges, by identifying and implementing sustainable environmental solutions. The organisation has a broad professional expertise and is an important link for a dialogue to national politicians concerning sustainable development. Bellona plays a key role in our initiative against the port authorities, cruise lines, municipalities and local business to create a common sustainable development in Flåm.

Cruise

Norway’s best AS works closely with the Port of Flåm (Aurland Hamnevesen), Bellona, Cruise Operators, The Norwegian Maritime Authority and fellow ports to work and be a driver for a sustainable and environmentally friendly cruise development and policy in Flåm. Planning a cruise to Flåm please check the local port authorities: <https://www.flamport.no/>
